

WEST 8TH

news and notes

New Fitness Center Opens at West 8th

West 8th's tenant-amenities package got even better with the recent opening of a 2,800-square-foot facility that includes commercial-grade aerobic-exercise and weight-training machines. The on-site center is perfect for tenants who want to reenergize their work day, at any time. Full-size men's and women's locker rooms are convenient for bicycle commuters or runners.

About 125,000 square feet of office space has been leased at West 8th, but there's still ample contiguous space available. In fact, there are still opportunities on both single- and multi-tenant floors – many with unobstructed, nearly 360-degree views.

Learn more about what West 8th can offer your clients at the building's newly updated Web site at www.west8th.com.
